

Latter-day Commentary of the Book of Mormon

PROPHETIC INSIGHTS TO AID YOUR STUDY OF THE BOOK OF MORMON Over many years of painstaking research and collection, Brother Douglas Bassett has compiled and abridged thousands of statements by prophets, General Authorities, scriptural scholars, and others who have unique insights into the marvelous principles and promises contained in the Book of Mormon. They relate to virtually every aspect, of this extraordinary book, from historical contexts to doctrinal issues to inspiring stories. Brother Bassett presents this fascinating material by topic within a chronological overview, making the Book of Mormons pages come to life with the hopes, admonitions, and promises of the gospel of Jesus Christ. This volume with its wealth of information and inspiration, is the perfect accompaniment for individual, classroom, or family study of the Book of Mormon.

Call My Journey...LifeSports, movies, family, kids, marriage, health, lifeWednesday, November 28, 2012Quick updateThe last time I posted a lot has changed. So for a quick update, my husband got a new job. As soon as we got an offer on our house we accepted we accepted it. We found a house to live in and put an offer on the table and after a little negotiation we came to an acceptable and agreeable offer. After a very painful moving process, which lasted 33 days after the original closing date we finally closed. I quit my part time teaching job. Now I get to stay at home with Roarie and substitute teach every now and then. Teaching is the only occupation that shapes our country. We teachers touch every life from the farmer to the lawyer, to the CEO of some big company. Granted you may not use everything that learn in the classroom but the structure, respect, responsibility, social skills and time management are life skills that are used everyday. The frustrating thing about being a teacher is the lack of money put into education. I am not complaining about how much money I make because teachers do not go into teaching. What I am complaining about is teachers getting cut, class sizes are getting bigger, and yet we still get the same pay. The schools who have the money have the money get the technology and the good test scores. The better the test scores the more money you get. So if you a poor school you don't get the technology and yet you don't get any money for the low test scores. So the rich get richer and the poor get poor. Needless to say, I have gotten word from the school superintendent that my special education position is being cut. I am still going to have a teaching job being a part time American History teacher. Which I am glad that I am getting into the general education setting and that I get to be a part time stay-at-home mom but at the same time I wish I had a full time, paying job. Grades six through eight take a field trip to a designed location and practice using good dining manners. So on Friday, April 13, 2012, we went some where local, the Colfax Historical Building for our dining. Before we go on our trip the staff reviews what it is to have good manners. There are so many manners to cover and sometime we just assume that it will happen but it doesn't. Here are a few manners that we
