

Triple Your Intelligence - Now!

You can and will increase your intelligence dramatically after reading this book only once. If you can understand what I have written here, you are already a potential genius! Once a person learns how to disentangle his beliefs and non-beliefs from what is real, existential, or true, in the sense that electrical power, the sun, and other realities are perceived as beyond contradiction, mind power automatically grows by leaps and bounds. When a person or society's beliefs become dominant, the more primitive and uneducated he or his nation becomes. Savages, primitives, ignoramuses, and dummies are just people who have allowed beliefs and non-beliefs to enslave their minds. Belief systems lie at the bottom of human awareness. Harness your beliefs - and you'll sit at the driver's seat of your mind! This book will train you to do this - after reading it only once!

Call My Journey...LifeSports, movies, family, kids, marriage, health, lifeWednesday, November 28, 2012Quick updateThe last time I posted a lot has changed. So for a quick update, my husband got a new job. As soon as we got an offer on our house we accepted we accepted it. We found a house to live in and put an offer on the table and after a little negotiation we came to an acceptable and agreeable offer. After a very painful moving process, which lasted 33 days after the original closing date we finally closed. I quit my part-time teaching job. Now I get to stay at home with Roarie and substitute teach every now and then. Teaching is the only occupation that shapes our country. We teachers touch every life from the farmer to the lawyer, to the CEO of some big company. Granted you may not use everything that you learn in the classroom but the structure, respect, responsibility, social skills and time management are life skills that are used everyday. The frustrating thing about being a teacher is the lack of money put into education. I am not complaining about how much money I make because teachers do not go into teaching. What I am complaining about is teachers getting cut, class sizes are getting bigger, and yet we still get the same pay. The schools who have the money have the money get the technology and the good test scores. The better the test scores the more money you get. So if you are a poor school you don't get the technology and yet you don't get any money for the low test scores. So the rich get richer and the poor get poor. Needless to say, I have gotten word from the school superintendent that my special education position is being cut. I am still going to have a teaching job being a part-time American History teacher. Which I am glad that I am getting into the general education setting and that I get to be a part-time stay-at-home mom but at the same time I wish I had a full-time, paying job. Grades six through eight take a field trip to a designated location and practice using good dining manners. So on Friday, April 13, 2012, we went some where local, the Colfax Historical Building for our dining. Before we go to on our trip the staff reviews what it is to have good manners. There are so many manners to cover and sometime we just assume that it will happen but it doesn't. Here are a few manners that we covered: Appearance- The students were to Shower, which as middle school students it is a challenge for some, and use soapFix hair up niceWear dress clothes- dresses, dress pants, dress shirtWear minimal make-upWear minimal perfume

or cologne
Table Setting-Silverware start on the outside and work your way in and the fork at the top of plate is the
desert fork
The drink is off to your left
Waiting for others-Wait for everyone to arrive to your table before seating
yourself
Wait for everyone to get their food before you begin eating
Table Talk-Speak softly to the people at your
table
Do not interrupt
Do not talk about bodily functions (farts, pooping, etc.)
Say "Please", "Thank you.", "You're
welcome." , "Pardon me"
Some things we took for granted and expected the students to know were:
Keep elbows off the
table
Keep elbows as close to your sides as possible when eating
Keep hands to your self (which is hard to do for middle
school students)
Listen to speaker (which is hard to do in the classroom too)
Pass dinner rolls and salad dressing all
around the table
