

MEASURING HEALTH PB SEE 2/ED

Increasing attention is being paid to the consequences of health and ill-health and to the outcomes of health care provision. Indices of health status in current usage focus on ill-health and are based on negative conceptualizations of health (eg mortality and morbidity rates, the self-reporting of symptoms, illness and functional ability). More attention is now being given to the development of positive measures of health, a term which encompasses concepts of social health, social well-being and quality of life. This volume reviews a wide range of popular measures of functional disability and health status, as well as broader measures of health such as those concerned with psychological well-being (eg anxiety and depression), emotional well-being (eg life satisfaction, morale and happiness), and social networks, support and loneliness. The book should interest social scientists and all health care professionals involved in the measurement of health.

Call My Journey...LifeSports, movies, family, kids, marriage, health, lifeWednesday, November 28, 2012Quick updateThe last time I posted a lot has changed. So for a quick update, my husband got a new job. As soon as we got an offer on our house we accepted we accepted it. We found a house to live in and put an offer on the table and after a little negotiation we can to an acceptable and agreeable offer. After a very painful moving process, which lasted 33 day after the original closing date we finally closed.I quit my part time teaching job. Now I get to stay at home with Roarie and substitute teach every now and then.Posted by Mrs. Stacie Christner at 8:13 AM Reactions: 75 comments: Friday, April 27, 2012Education CutsOne of the most important things in life is to have a good education. Teaching is the only occupation that shapes our country. We teachers touch every life from the farmer to the lawyer, to the CEO of some big company. Granted you may not use everything that learn in the classroom but the structure, respect, responsibility, social skills and time management are life skills that are used everyday.The frustrating thing about being a teacher is the lack of money put into education. I am not complaining about how much money I make because teachers do not go into teaching. What I am complaining about is teachers getting cut, class sizes are getting bigger, and yet we still get the same pay. The schools who have the money have the money get the technology and the good test scores. The better the test scores the more money you get. So if you a poor school you don't get the technology and yet you don't get any money for the low test scores. So the rich get richer and the poor get poor.Needless to say, I have gotten word from the school superintendent that my special education position is being cut. I am still going to have a teaching job being a part time American History teacher. Which I am glad that I am getting into the general education setting and that I get to be a part time stay-at-home mom but at the same time I wish I had a full time, paying job.Posted by Mrs. Stacie Christner at 7:39 PM Reactions: 24 comments: Sunday, April 15, 2012Manners Meal Every year, the Colfax-Mingo Middle School does what they call manners meal. Grades six through eight take a field trip to a designed location and practice using good dining manners. So on Friday, April 13, 2012, we went some where local, the Colfax Historical Building for our dining. Before we go to on our trip the staff reviews what it is to have good manners. There are so many

manners to cover and sometime we just assume that it will happen but it doesn't. Here are a few manners that we covered: Appearance- The students were to Shower, which as middle school students it is a challenge for some, and use soap
 Fix hair up nice
 Wear dress clothes- dresses, dress pants, dress shirt
 Wear minimal make-up
 Wear minimal perfume or cologne
 Table Setting-Silverware start on the outside and work your way in and the fork at the top of plate is the desert fork
 The drink is off to your left
 Waiting for others-Wait for everyone to arrive to your table before seating yourself
 Wait for everyone to get their food before you begin eating
 Table Talk-Speak softly to the people at your table
 Do not interrupt
 Do not talk about bodily functions (farts, pooping, etc.)
 Say "Please", "Thank you.", "You're welcome.", "Pardon me"
 Some things we took for granted and expected the students to know were:
 Keep elbows off the table
 Keep elbows as close to your sides as possible when eating
 Keep hands to your self (which is hard to do for middle school students)
 Listen to speaker (which is hard to do in the classroom too)
 Pass dinner rolls and salad dressing all around the table

 Mrs. Stacie Christner
 I am a second year Special Education teacher at Colfax-Mingo Middle school. I got married in July of 2010 to the love of my life. We have a morkie dog (maltese/yokie mix), Laila. I do a lot of online shopping and would like to tell you about great deals that I find.
